Subject: new supplies are needed because of the bell design changes of HDJ parts (21027-SP701 and 21027-SP711)

Quotation

1. Items & Prices

No.	Item Description	Qty.	Unit price	Amount
1	Design and make a bell hardening coil	1	7,500	7,500
2	Positioning jig	1	500	500
3	Lifting jig	2	500	1,000
4	Marking positioning jig	1	500	500
5	Process developments for 21027-SP701 and 21027-SP711 by EFD process engineer with the new bell hardening coil above at WIA Mexico plant	2	4,200	8,400 7,500
6	Round-trip transportations between EFD China and WIA Mexico regarding the bell hardening coil modifications	1	1,000	1,000
7	Bell eddy coils made by ibg	2	5,500	11,000
TOTAL PRICE (USD), FOB Shanghai				29,900 29,000

*comment: a spare coil copied from the above No.1 "bell hardening coil" will be provided from the scope of WIA's PO (No. WIA2010-005) as EFD hasn't yet make a spare coil for 1st version of HDJ parts.

2. IMPORTANT COMMENT:

The above prices are based on those process developments for 21027-SP701 and 21027-SP711 by EFD process engineer with the new bell hardening coil at WIA Mexico plant must be done during the commissioning but the last step before EFD engineers come back to China.

If those for 21027-SP701 and 21027-SP711 are not ready before EFD engineers come back to

EFD Induction (Shanghai) Co., Ltd.
