TECHNICAL OFFER

READING STATION MODIFICATION IN T/HSG 3206 GH MACHINE

1. General

1.1. Introduction

In response to the requirement of the HYUNDAI client to the GH company for installation of a new laser reading in GH 3206 machine, GH presents the following formal offer.

GH includes in this offer all the necessary modifications to carry with the re-programming, installation and commissioning of the new Laser Reading Station in the T/HSG GH Machine. Serial n°: 3206 00000.

Mechanical, programming, etc. modifications will be detailed later in this document.

HYUNDAI WIA Requests:

Required Specification for Purchase

Page : 3/3

BASIC SPECIFICATION

1) Scope of work

① Induction Hardening Machine (T/HSG #2)

- Change in the sequence of marking for Friction welded (IDS)

<Before>

- To carry out "laser marking" on the cross-section of stem after hardening + To carry out "dot marking" on the cup side area.
- Marking Info : 

<After>

- **No laser marking after hardening** + Dot Marking at Cup side area (**★only for IDS type**)
- To read "Marking info" carried out in the previous process of Friction-welding (+ **Install a NEW READER, Keyence SRX300**)
- After reading marking info(carried out in friction welding process), to upload to MES with the **connection number**

Keyence SRX300 Reader position for friction welded parts

1.2. Upgrading and development description

As mentioned in the introduction to this document, we proceed to describe the modifications and tasks necessary for the adaptation of the OF:3206 machine to carry out the installation and commissioning of the Laser reading machine.

MECHANICAL MODIFICATIONS

According to the customer's needs, the GH mechanical Department describes the needs and also the tasks necessary to comply with the hardening specifications indicated by HYUNDAI.

All necessary modifications are detailed below:

Machine modifications:

- Fixing and adaptable system in eddy current design and manufacturing
- Laser reader protection

GH idea about the positioning of new reader will be like this:

SOFTWARE MODIFICATIONS

According to the customer's needs, the GH Software and programming Department describes the needs and also the tasks necessary to comply with the hardening specifications indicated by HYUNDAI.

Laser reading implementation

GH includes in the scope of this offer, all the necessary programming for the insertion of the new laser reader in the position indicated by GH.

- This offer includes dialing and dialer configuration tests at GH facilities.
- The cost of the reading laser machine SR-X300 is included.
- Additional auxiliary material and remote assistance during starting-up process is also included

1.3. Required Plant Supplies (GH Requirements).

GH considers it necessary for the 3206 machine to be in a perfect state of maintenance in order to proceed with the necessary tasks and modifications.

Changes in power, frequency, connection with respect to HYUNDAI facilities will not be necessary.

1.4. Technical Assistance and commissioning

In accordance with HYUNDAI's previous requirements, GH details below the scope of the implementation of this integration in 3206 machine.

HYUNDAI requirements:

Support for SOP	Installation/commissioning (2 working weeks)
-----------------	--

Based on Hyundai's comments, GH is listed in this offering as follows:

- Technical assistance for Starting-up process for laser reading implementation (1 week). 2 Servi. Eng.
- Technical assistance for SOP during 1 week. 1 Service Engineer

For this technical assistance GH consider the intervention of the necessary personnel in Hyundai facilities. GH consider. 2 week 1 GH Service Engineer or 1 week 2 Service Engineers

1.5. Transport and delivery

According to the requirements of the upgrade, GH will need to purchase the laser reader and come to GH with the programming and tests.

GH include **DAP to Mexico**.

2. Services and others

2.1. Standards

The equipment's design and manufacturing will be performed according to the "GH Standards" which can be downloaded at the following link <http://www.ghinduction.com/wp-content/uploads/2018/10/DOC-12-GH-STANDARDS-MANUFACTURE-OF-MACHINERY-ENG.pdf>

In case of having specific customer standards, mention here , followed by this text:

The customer fully agrees these "GH Standards" which are in any case complementary to the client's standards or specifications.

2.2. Final Acceptance

The final acceptance tests will be carried out after commissioning at the customer's premises.

The scope of these tests will be identical to the Pre-Acceptance tests which were carried out before delivery at GH's premises.

COMMERCIAL OFFER

READING STATION MODIFICATION IN T/HSG 3206 GH MACHINE

3. Pricing Proposal

According to the information provided by HWM (HYUNDAI WIA MEXICO), GH Induction propose the following prices.

Scope of Supply and Price List (No Taxes Included)

MECHANICAL AND SOFTWARE

Code	Item	Qty.	Price (EUR)
1.	Mechanical modifications in 3206 GH machine	1	
2.	Software and Hardware modifications in 3206 GH machine Keyence laser reader included	1	
Total items 1 to 2, EXW Valencia (Spain)			29.340,00 €

ASSISTANCE AND STARTING-UP

Code	Item	Qty.	Price (EUR)
3.	Technical starting-up for implementation of Laser reading machine. 1 week of 2 Service Engineer. + 1 week SOP 1 Service Engineer (option 1 has been explained in point 1.4.)	1	40.220,00-€

FINAL PRICE LASER READING STATION IN T/HSG 3206 GH MACHINE. (DAP Shipping included)	69.560,00-€
--	-------------

4. Supply conditions

Delivery Terms

Delivery Time

The system proposed by GH Induction is scheduled to be delivered as follow:

- **4 working weeks** after receipt of formal purchase order, down payment and clarification of all technical details.

Delivery Conditions

Our equipment is delivered according to the following 2010 Incoterms:

- DAP GH ELECTROTERMIA, S.A.U., San Antonio de Benagéber, València (SPAIN).

Packing Conditions

Wrapped and protected for ground transportation.

Payment Terms

100%	(TT) after DAP: Performance Bond and Warranty Bond required
------	---

Delayed Payment

GH Induction reserves its right to apply a financial interest charge on any delayed payment beyond agreed and stipulated date. This charge of interest has a value of 6% (value 2015) and is calculated on the entire due amount. Calculation of such financial interest shall be made by sections of 14 days minimum.

Non-payment or delayed payment of our invoices - for any reason whatsoever - gives us the indisputable right to demand advance payment for the remaining supply, without prejudice of any other action, or to consider the contract suspended or annulled, and to annul the practice of any other contracts that may be in force, without giving the buyer the right to any type of refund or compensation for damages, or other.

Pricing revision

During the validity of our offer or after an order our pricing can be reviewed if one of the following terms occurs:

- Customer Parts designs change.
- Change in standards definition after end of design period.
- Change in machine's scope.

Offer Validity

This is a firm offer with prices valid for a period of 60 days

Warranty

- GH guarantees its products, while and to the exceptions listed below, against any manufacturing defect or defects in the materials used. This warranty GH requires repair or replacement, in their view, of any part recognized as defective, without compensation by any of the parties.
The items damaged during the warranty period should be referred to GH freight prepaid for examination and repair or replace GH prepaid by ordinary transport. Destination custom tariffs will never be paid by GH.
- Excluded from this warranty:
 - Damaged parts for wear and tear, negligent handling, inadequate oversight and excessive overloads.
 - Modifications, repairs or assembly and commissioning of new developments not made or authorized by GH.
 - The parts imposed by the buyer.
 - The elements to be explicitly specified such as inductors, tools, etc. (any wear elements).
 - The labour assembly and disassembly of defective parts.
- The total duration of the warranty is 12 months from the acceptance of the machine or up to 15 months from delivery (unless a different period is specified in the purchase agreement).
- The guarantee does not imply that all replacement parts are available at the nearest centre GH. For this reason, we invite the client to purchase the recommended spares.
- GH will not be liable for damages due to delay in providing services in the work resulting from causes beyond the reasonable control of GH. These causes include, without limitation, compliance with any regulations, governmental orders or instructions, natural disasters, acts or omissions of Customer, acts of civil or military authorities, fires, strikes, war, riot or delay in transportation. GH in no event be liable for special or consequential damages caused by delay due to any reason.
- The guarantee is applied at the place where the sale is made or at the end point indicated in the contract.

Equipment Property

The equipment remains the property of GH Induction until payment is duly performed. However, once the equipment is transferred to customer's plant responsibility is transferred to user and the user's insurance will cover the entire value of the said machine.

Any controversy, claim or dispute arising between the parties about the interpretation and fulfilment of this sales contract will be referred to the exclusive jurisdiction of the Courts of Valencia, Spain. This sales contract is likewise exclusively governed by Spanish Law.

Design Property and Process Know-How

Machine(s) design(s) remain the property of GH Induction Group. No detail drawings will be provided unless specific agreement which does not allow, anyway the use of the machine design for machine manufacturing. Such behaviour would be considered as an infringement of copyright.

The following design won't be provided:

- Detailed mechanical drawings
- Inductor drawings
- Electronic control boards
- Dies or tooling designs

Assembly drawings will be provided for proper management of the maintenance operation

In addition to those designs, the customer understands the importance of the know-how and commercial information we are sharing while providing commercial or technical offers. The client decisively undertakes not to disclose any technical or commercial information or any other data which he might learn about during the contractual relationship. In the event of any breach of the above on the part of the client, the seller reserves the right to claim compensation for damages.

Order Cancellation

In case where the order would have to be cancelled before machine's production termination, GH Induction would be entitled to a fair compensation. This compensation would be following some general guidelines:

- At design level: 15% of the entire project value.
- After design and prior final machine assembly:
 - Value of finished goods increased by 1.40 applied on book value for handling cost and financial compensation.
- During machine assembly and before machine shipment:
 - 100% of contract value.

Once this payment is made, the components or finished goods will be fully transferred to the customer.

Use of Customer's References

GH Induction will be, unless clearly mentioned in the contract, entitled to use customer's name as reference within its reference list for its promotion. Of course, no data or information about handled process will be provided to any third party.

Personal Data Protection

Your details will become part of a database owned by GH ELECTROTERMIA, S.A.U. and processed for the purposes of CUSTOMER MANAGEMENT, MAINTENANCE, PAYMENTS, DISPATCH OF COMMERCIAL COMMUNICATIONS AND NEWSLETTERS.

You also expressly agree that GH ELECTROTERMIA, S.A.U. may use your personal details to send, by any means, including electronic means, commercial information and advertising on its products and services.
